### GENERAL LIQUIDITY UPDATE

September 2022

Dear Valued Investor,

As you will know this Fund / Strategy does not operate with UCIT type liquidity and therefore redemption requests remain variable and on a best-efforts basis and currently, the Fund operates with extended redemption notice periods. Although the Fund expects various liquidity events over the next year, new redemption requests are being booked at Q3/2024.

While additional liquidity notice periods remain in place, the Investment Manager will continuously review the overall liquidity situation of the Fund and look to reduce this as soon as reasonably possible and will provide further updates as soon as we are able. The process of managing redemption requests correlates to the availability of liquidity from the underlying assets of the Fund. A significant portion of the underlying assets are finance lending facilities which operate across a longer-term time horizon, and thus there is no expectation that any sale, or re-finance, of these assets can be realised in the short-term to satisfy any redemption requests outside of the terms indicated above.

Since August the Fund made the decision to temporarily reduce the placement of share class currency hedges to 70%, which are typically carried out on a monthly basis for spot and one month forward for the non-base currency share classes of the Fund, although it hopes to operate with up to 100% hedge again during Q4. As before, this decision has been taken to preserve the cash surplus of the Fund, and the Investment Manager will look to fully replace the currency hedge as soon as practicable and will provide further updates as soon as we are able, e.g. when the increased amount of redemption requests has abated.

The Fund via its main Finance Arranger is currently in discussion with several large groups to generate new wholesale debt mandates which would include the ability to move some existing performing assets over to alternative funding pools (similar to what has been done previously in 2020 and 2021) enabling greater liquidity and flexibility. Furthermore, the Fund continues to reduce gross exposure to non-core assets / investments.

We continue to believe in private debt strategies as an increasingly important allocation to Investor portfolios, particularly from a global macro environmental perspective where there are significant challenges due to supply chain issues and the war in the Ukraine.

We thank you for your ongoing trust and confidence in us and look forward to continuing to manage your valuable assets. Should you have any questions, please do not hesitate to contact us:
